

True Harvest Cocoa

Website Design and Development Proposal

Ref ID: THC-PROPOSAL-2026-V2 | Issued: September 17, 2026

Client:	True Harvest Cocoa
Partner:	Kogzen Innovative Solutions
Total Investment:	CAD \$1,000
Timeline:	4–6 Weeks
Support Included:	12 Months Maintenance

1. PROJECT OVERVIEW & OBJECTIVES

Kogzen Innovative Solutions proposes a custom corporate website to establish a clear, credible, and engaging online platform for **True Harvest Cocoa**. The primary objective is to present the company's purpose, sustainable cocoa sourcing model, operational capabilities, and community impact to global buyers, agricultural partners, investors, and key stakeholders.

Core Business Objectives

- Communicate True Harvest Cocoa's mission, ethical sourcing model, and commitment to farmer prosperity.
- Provide a structured multi-page layout allowing prospective buyers to explore products, specifications, and sustainability credentials.
- Deliver an accessible route for business inquiries through a professional enquiry form and direct WhatsApp chat integration.
- Establish a responsive, high-performance visual identity inspired by client-approved corporate standards.

2. DETAILED PROJECT SCOPE & DELIVERABLES

The scope encompasses full design, technical configuration, content implementation, testing, and deployment for approximately **five primary pages**, alongside essential integrations.

Deliverable Item	Description & Key Elements Included
1. Home Page	Executive hero banner, core value proposition, key operational highlights (Direct Farmer Partnerships, Quality Control, Traceable Logistics), corporate impact counters, and clear call-to-action sections.
2. About Us Page	Company story ("From Bean to Business"), mission, vision, core values, philosophy, ethical commitments, and leadership/agronomy team profile grid.
3. Our Model Page	Step-by-step visual supply chain framework (Ethical Sourcing → Post-Harvest Processing → Digital Traceability → Global Export), scalability breakdown, and EUDR compliance capabilities.

Deliverable Item	Description & Key Elements Included
4. Impact & Resources Page	Sustainability metrics dashboard (Farmers Empowered, Hectares Protected, Income Premiums), industry insights/updates, and downloadable PDF corporate report sections.
5. Contact Us Page	Business contact details (Email, Phone, Headquarters address), interactive stakeholder enquiry form with subject categories and submission feedback, and instant WhatsApp connect bar.
6. Technical Setup & Domain	Connecting domain to hosting environment, web server configuration, SSL/HTTPS security setup, and early deliverable temporary "Coming Soon" landing page during initial development.
7. Special Integrations	Floating direct WhatsApp chat widget on all pages, custom browser favicon/identity setup, and mobile-responsive drawer menu.

3. WORK QUALITY STANDARDS & QA PROCESS

Kogzen Innovative Solutions adheres to strict technical and visual quality benchmarks to ensure a professional, secure, and performant deliverable:

 **Visual & Layout Quality**

- Professional typography, brand palette, and consistent header/footer alignment across all pages.
- Fully responsive layout adapted for Desktop, Tablet, and Mobile screen viewports.
- Clean, standard-compliant HTML5 and CSS3 without reliance on external heavy frameworks.

 **Performance & Compatibility**

- Optimized page load speed and clean asset organization.
- Cross-browser compatibility testing across Chrome, Edge, Safari, and Firefox.
- Form validation, link verification, and SSL security protocol configuration.

4. PROJECT TIMELINE & MILESTONES

Estimated delivery is **4 to 6 weeks** from project kickoff upon receipt of required brand assets, initial copy, access credentials, and upfront payment.

Phase	Indicative Schedule	Key Activities & Milestones
Phase 1: Planning & Setup	Week 1	Confirm site architecture, receive brand assets/content, configure hosting environment, and deploy temporary Coming Soon page.

Phase	Indicative Schedule	Key Activities & Milestones
Phase 2: Design	Weeks 1 – 2	Develop visual direction, color schemes, typography system, and page layout mockups for client review.
Phase 3: Development	Weeks 2 – 4	Build responsive HTML/CSS pages, implement copy/imagery, configure interactive forms, and integrate floating WhatsApp widget.
Phase 4: QA & Launch	Weeks 4 – 6	Quality assurance testing, multi-device review, client final sign-off, domain launch, and handover.

5. PROJECT INVESTMENT & PAYMENT TERMS

The total fixed investment for the scope outlined in this proposal is **CAD \$1,000** (Canadian Dollars).

Payment Milestone	Amount (CAD)	Due Date / Trigger Point
50% Upfront Deposit	CAD \$500	Due upon proposal acceptance and contract signing, prior to project commencement.
50% Final Payment	CAD \$500	Due upon project completion, testing, and client sign-off, prior to live public launch.
Total Fee	CAD \$1,000	Fixed project cost (excluding third-party services).

Third-Party Cost Exclusions

Domain name registration/renewal, external web hosting subscriptions, premium paid software/plugins, and licensed stock media are excluded from the project fee and remain the client's responsibility.

6. REVISIONS & SCOPE MANAGEMENT

- **Included Revisions:** Reasonable revisions to layout, text copy placement, and image styling within the agreed structure are included during design and development phases.
- **Out-of-Scope Requests:** Material changes to site architecture, additional pages beyond the 5 primary pages, custom database programming, complex e-commerce, or custom backend integrations will be quoted separately upon request.

7. COMPLIMENTARY 12-MONTH MAINTENANCE & SUPPORT

12 Months Included Warranty & Support

For 12 months following the public launch date, Kogzen Innovative Solutions will provide complimentary maintenance support to ensure website stability and functionality.

- **Included Support:** Minor text updates, image replacements, contact detail updates, layout bug fixes, and routine compatibility checks.
- **Support Boundaries:** Excludes major site redesigns, new page additions, hosting migrations, or third-party platform upgrades.

8. CLIENT RESPONSIBILITIES

- Appoint a primary contact person responsible for consolidated feedback and timely approvals.
- Supply high-resolution company logos, approved page copy, product details, team information, and imagery.
- Provide required web hosting, domain access, and designated enquiry email / WhatsApp contact details.
